

# Substance use care that works, simplified.

Medication support

Community connection

Completely confidential

## Easy, streamlined, virtual recovery care in your hands.

Here's how it works:

### 1 Schedule an appointment

It only takes a few minutes. Download our app, answer a few questions about your treatment goals, and upload your ID and insurance info. Then schedule your first provider appointment.

### 2 See a provider via video

Meet with a clinician in a secure video appointment to discuss your goals and treatment plan. When appropriate, medication will be prescribed to your local pharmacy.

### 3 Get ongoing support

Have regular video appointments with your clinician, behavioral health support, and fellow members. Join online recovery groups. Work through courses that help you build coping skills, so you can create lasting change in your life.

## You're not alone. 1 in 5 Americans struggle with substance use.

Workit Health provides the tools you need to live the life you want:

- ✓ Expert care from anywhere
- ✓ Medication-assisted treatment
- ✓ Community connection
- ✓ Behavioral health support
- ✓ Discreet treatment
- ✓ Secure telehealth care

### Medication support

FDA-approved medication can help reduce cravings and support your recovery from opioids or alcohol. Workit Health providers build a personalized care plan and e-prescribe medication to a local pharmacy when appropriate.

### Personal support

Learn from other members in Shared Medical Appointments, and develop new life skills in therapist-guided online recovery groups. Message your care team anytime through the Workit Health app.

### Confidential, discreet treatment

Workit Health takes privacy seriously. Our program is private and secure. We will never release your information to anyone without your permission.

### No judgment, no shame

Created by people in recovery who understand. You don't have to identify as an addict or alcoholic, and no one will judge you. Our compassionate care teams are dedicated to harm reduction.
